[Get to Know the Basics]

1. What is SUPER FORMULA?

Japanese Championship SUPER FORMULA is the top category of Japanese formula racing featuring purpose-built racing cars with single-seat, open cockpit and open wheel. Organized by Japan Race Promotion Inc. and fully sanctioned by the Japan Automobile Federation (JAF), SUPER FORMULA traces back its origins to the Japanese Championship Formula NIPPON first launched in 1996. 2013 saw the relaunch of the series given a new name of SUPER FORMULA.

2. Championship Awards

The Drivers' Championship title is awarded to the driver who scores the most points over the course of the season. The Driver Champion is given the Series Driver's Champion Cup and prize money by Japan Race Promotion Inc. On top of this, he receives the Confederation's Cup offered by Parliamentary Association for Motorsport Promotion of the Liberal Democratic Party of Japan, as well as the Commissioner's Cup from the Japan Tourism Agency. Towards the Team Champion, the Minister's Cup will be awarded by the Ministry of Economy, Trade and Industry, plus prize money by Japan Race Promotion Inc.

3. Race Car

The base chassis SF14 is supplied by Dallara (Italy). The cars are powered by 2.0-litre turbo-charged inline-4 direct injection engine either from Honda (HR414E) or Toyota (RI4A). Bridgestone serves as the sole tyre supplier.

4. Overtake System

The Overtake System (OTS) is an overtaking aid that works by leveraging the fuel flow restrictor (fuel flow rate control system) employed on the new engine. It can increase fuel supply temporarily to provide approximately five per cent of engine performance improvement. By pressing a button called OTB (Overtake Button) on the steering wheel, the system will be activated for 20 seconds per use. Drivers may use the OTS up to 5 times a race. The status of the OTS use can easily be recognized by "Overtake Lamp (five small LEDs)" on the roll hoop. The number of lighted Lamp(s) shows the number of OTS activation, and on top of this they are blinking when the system is in use. The Lamps basically illuminate white while the championship leader comes with red lights called "Leader's Red". The Overtake Lamp system can only be seen in SUPER FORMULA.
