November 25 (Wednesday) / **November 26** (Thursday)

Japanese Championship SUPER FORMULA

“ Engine Manufacturer Testing and Rookie Driver Tryouts ”

Japan Race Promotion Inc. (President: Hiroshi Shirai, Head office: Chiyoda-ku, Tokyo, Japan) today announced details of a two-day session for engine manufacturer testing and rookie driver tryouts. The session will take place on 25-26 November at the Suzuka Circuit (length = 5.807km) in Mie Prefecture, Japan.

During the session the teams will use ADVAN racing tires supplied by Yokohama Rubber Co., Ltd., which will be the official tire supplier from the 2016 Super Formula season. The session will therefore give all the teams an opportunity to conduct shakedown tests with the new tires.

Close-up interviews with the rookie drivers and representatives from Yokohama Rubber are also planned. Dates and times will be announced later when finalized.

We invite the media to take this opportunity to observe the engine and rookie driver testing.

Please visit the official Super Formula website (<http://superformula.net>) for upcoming information about next season's teams and drivers, as and when it becomes available.
